Re: S/T F/s as repository for foreign trade
FOIAb3b estimates, [redacted] suggestion

D/A/A is in the process of setting up estimate files. They already have some foreign trade data. A check shows that the recording and filing system is adequate.

Unless there is a good argument to the contrary, why not continue the present system rather than giving S/T F/s the responsibility?

What next?

C. D.
